

Often people say 'moving house will be one of the most stressful things you do.' Not with our handy checklist, keeping you prepared. Avoid the usual stresses, and move into your new home with style.

## Before moving from your old property

- Contact the providers of utilities & services at the new property to arrange the connections.
- Redirect your post with Royal Mail.
- Setup a date with all suppliers to switch: cable, satellite, broadband, and home contents insurance.
- Record the meter readings before moving.
- If you are renting, make sure to give the correct notice to your landlord.
- Allow time to repair any damage where pictures or shelves have been removed.
- Empty the freezer and turn it off for moving.
- Pack the essentials for moving-in day including essential tools.
- Arrange for children and pets to be cared for on move in day.
- Pack valuable and fragile items separately - and transport them yourself.
- Be sure all is working fine in your new home!

## When you move into your new home

- Make the beds up for somewhere to crash!
- Record the meter readings in the new home.
- Inform important people you have moved including doctors, subscriptions, council tax, friends and family etc.
